

Security

MONEYZEN aims to ensure that visiting and using our financial portal is as convenient, fast, and secure as possible.

Our online activities comply with all relevant activities and corresponding European Union legislation and laws of the Republic of Estonia.

The personal data provided to MONEYZEN is collected for the purpose of identification and communication with the individual. Personal data is provided by individuals with their consent when registering as a user of financial portal MONEYZEN.

To ensure a secure online environment, all transactions between MONEYZEN and the client through internet banking, as well as any data provided by the user, are fully encrypted with a secure https connection.
